THE WEAVER GARDENS COMPANY

Nurserymen, Landscape, Flower &
Vegetable Gardeners

Gardens, Office and Salesroom

1502 Woodrow Avenue—West Riverside

Mail Address: R. 9, Wichita, Kansas

WEAVER GARDENS ARE GROWERS OF GOOD PLANTS—In growing Vegetables or Flowers, the right start is the right kind of plants. good strong plants from fertile seed delivered to you in live growing condition is your first assurance of a paying crop of good Vegetables, and beautiful decorative Flowers and Vines.

Our plants come to you in LIVE GROWING CONDITION to be planted at once, or held ordinarily for several days if desired.

Our prices includes Packing Charges and all mail or express charges necessary to deliver prepaid.—

THIS IS A BIG SAVING TO YOU.

VARIETIES AND SHIPMENT—Our list includes all Standard and newer sorts, and if selection is left to us, you will receive the best varieties for your locality, otherwise, we reserve the right to substitute a similar or better kind for any variety ordered that might be temporarily exhausted at that time. Our idea at all times is to give you plants or bulbs worth the price remitted. During planting season ordinarily, we ship not later than the day following receipt of order, or at any particular date requested.

ORDER EARLY—Remember we pay all Delivery Charges—Auto Delivery in Wichita.

TERMS AND GUARANTEE—Remittance with order, as satisfaction and safe delivery are guaranteed. While we take the greatest pains to have all nursery stock, flower plants, bulbs, etc., true to label, we hold ourselves in readiness, upon proper proof, to replace all stock that may prove to be untrue, or fails to grow under proper care, or will refund the amount paid. It is mutually agreed between the purchaser and ourselves that we give no warranty, express or implied as to description, quality or any other matter of any Nursery Stock, Flower Plants, Bulbs, etc., that we send out, and we will not be in any way responsible for the crop beyond the amount paid for such stock. If the purchaser does not accept these terms they are at once to be returned.

EVERYTHING DELIVERED PREPAID—Mail, direct to your address, at prices quoted. "DELIVERED PREPAID" often proves an enormous saving, for instance a clump of Rhubarb roots bought in Minnesota "costing 50c F. O. B." through careless packing "cost \$4.10" delivered Wichita. It can happen to you. Often times it will pay big to buy "THE WEAVER WAY, DELIVERED PREPAID."

**PICKLING CUCUMBERS—DELICIOUS SWEET
PICKLES**

At Only 4 to 6 cents per dozen

Attention Housewives—The Weaver Gardens Company are growers of Little Gherkin Pickling Cucumbers. They are an irrigated product and make delicious sweet, sour, dill, mustard or mixed mustard Pickles—proven recipes for all, sent out with every order. The season closes with the first frost. But remember them during season in June, July, August, and September. The size is individual and just right, 25 can be packed in a pint jar. You will like them, everyone does. Our shipping containers hold 300, 500 and 1000 so please order accordingly.

Warning—Do not wait until late in season to order as so many do, we are always sold ahead at that time. **ALL**

ORDERS ARE FILLED IN ROTATION AS RECEIVED.

Strong 2 year size.....	.50	1.25	2.25		

OLD FASHIONED FLOWERS—HARDY PERENNIALS

Year after year the Perennial plants reappear and flower abundantly. As each variety has a fixed time of blooming, a selection of plants can be made that will give flowers to cut and enjoy each day of the season—from earliest spring until fall. They require little attention, for a light mulching with fertilizer in the fall and some care as to the weeding and watering during the growing season is usually sufficient. In preparation of soil for planting perennials, dig deep and plant in well pulverized soil. Work in rotted manure. Cultivation and rich soil are the secrets of beautiful flowers.

ACHILLEA—(*Milfoil—Pearl Flower*)—A hardy plant, very useful in the flower garden and for planting among shrubbery. The foliage is deeply cut. Plants are covered during June, July and August with a mass of flowers on 12—18 inch stems. Fine for bouquets.

	Delivered Prepaid Prices	each	6	12

2 Year Old Plants.....	.35	1.75	3.00		
3 Year Old Plants.....	.50	2.50	4.50		

IRIS—(Fleur-de-Lis)

Blooms in early summer before most shrubs, although there are late varieties that will last until July. Does well in any reasonably good soil and location. When planting, either in spring or fall avoid fresh manure and plant merely deep enough to cover the roots well. Once established, Iris is practically permanent, increasing rapidly by division. In the description "Standard" or "S" refers to the three upright petals. The "Falls" or "F" refers to the three drooping or lower petals.

IRIS—(Germanica)—The flowers of this species have the beauty and structure of orchids. The color range embraces every shade from purest white through all variation of yellow, mauve, and dark purple. Iris Germanica is extremely hardy and suited to planting anywhere.

Purple Queen—Large showy deep purple, fragrant flowers with pink throat and yellow stigmas. Fine for cutting. Evergreen foliage, one of the best and hardiest Iris in cultivation, thrives in all soils, even poorest sand. (100—\$3.00)	.10	.30	.50
IRIS OF UNUSUAL COLOR COMBINATION—NAMED SORTS			
Monsignor—(New)—S, blush-lavender; F, violet with white veins	.25	1.25	2.25
Mary Garden—S, pale yellow flushed pale lavender; long, drooping creamy white, minutely dotted and veined maroon, stigmas cream yellow, very distinct	.35	1.75	3.00
Princess Victoria Louise—S, sulphur-yellow, F, rich plum, border cream	.35	1.75	3.00
Rhein Nixe—(New)—S, white; F, blue and old gold	.25	1.25	2.25
IRIS SIBIRICA—A delicate free-flowering Iris. One of the best for cutting. Foliage is narrow and grass-like with flowers borne on slender stems 2 to 3 ft. high. Season of bloom, later than the German Iris. Blue or White	.20	1.00	1.75
JAPANESE IRIS—The flowers of the Japanese Iris are of remarkable beauty, both in coloring and in size. They are not of the extreme hardiness of the Germanica type and should always have a light winter mulching. Give plenty of moisture during the dry season and keep the soil well stirred up about the plants. Bloom in July.			
Mixed Colors—Violet-blue, rose, pink, white and violet	.25	1.25	2.25
IRIS—SPECIAL OFFER—An assortment including all colors for general landscape planting. 12—\$1.00; 50—\$3.50; 100—\$6.00; Prepaid.			

LILIES—HARDY VARIETIES

No flower is more expressive of the idea of queenly beauty and faultless purity than the Lily. The bulbs should be planted 5—8 ins. deep with a little sand under and around the base of the bulb.

NATIVE LILIES—*Lilium Candidum*—(Madonna Lily)—A hardy garden sort that has long been one of the most popular lilies. It is one of the finest single clear white flower in cultivation and its rich perfume is very attractive. *Tigrinum Splendens*—(Tiger Lily)—A fine heavy blooming sort with orange, spotted black flowers. Very hardy. *Tigrinum flore pleno*—(Double Tiger Lily)—A variety of the Tiger Lily with beautiful double flowers.

ROSES, STRONG 2—3 YEAR BLOOMING SIZE

Roses for outside growing that bloom, are the kind we sell. We grow roses out in the open, in poor soil, without any special care. Such plants are accustomed to all weather conditions and unquestionably superior for outdoors growing over hot-house grown Roses. When Planting dig deep and fertilize well with rotted manure. Heavy compact soils must have drainage of cinders or other coarse material 2—3 ft. below surface.

EVERBLOOMING ROSES—Hybrid Teas and Related groups. RED AND SHADES OF RED.

Delivered Prepaid Prices	each	3	6
--------------------------	------	---	---

American Beauty—Although strictly a Hybrid Tea, this elegant rose is usually classed among the Hybrid Perpetuals, owing to its vigorous growth. Very large, double bright carmine red. A rose for everyone.....	1.00	2.50	4.50
Etoile De France—(Star of France)—Color a lovely shade of clear, red-crimson velvet; very fragrant.....	1.00	2.50	4.50

Gruss an Teplitz—Bright crimson, fiery-red center; cup-shaped semi-double flowers in cluster; so free in bloom as to present a blaze of scarlet.....	1.00	2.50	4.50
--	------	------	------

Milady—One of the best velvety deep red roses. Very fragrant and profuse bloomer. Be sure to include this one.....	.75	2.00	3.75
--	-----	------	------

Red Radiance—Adapted to our trying American climate. It blooms bountifully, producing extra-large, beautifully formed flowers of brilliant rosy crimson. The flowers on long, strong stems are fine for cutting.....	.75	2.00	3.75
Star of France—(See Etoile De France).			

PINK AND SHADES OF PINK—			
Columbia—It is a big rose, the open flower measuring 6 ins. across. The color is true pink, deepening as it opens to glowing pink. A great rose. Does well for everyone. A first choice Rose.....	.75	2.00	3.75

Mrs. Chas. Russell — Long pointed buds,

---	--	------	------	------

Sweet Brier —(Rubiginosa)—An old garden favorite that is highly prized on account of the delightful fragrance of its leaves and young branches. It is perfectly hardy, and once planted requires very little care. It is particularly fine for hedges, and makes splendid single plants on the lawn.....		1.00	2.50	4.50
---	--	------	------	------

HARDY FREE FLOWERING CLIMBING AND RAMBLER ROSES —There are no flowers grown that surpass the Hardy Climbing Roses for combined beauty and abundance of bloom. Some of the large-flowered types like Climbing American Beauty, Dr. W. Van Fleet or Gardenia, are simply covered with perfect Roses. These hardy climbing Roses grow easily on pillars, porches, fences, etc., with delightful effect. They bloom the second season after planting.				
--	--	--	--	--

American Pillar —Single flowers of rich, rosy pink approaching brilliant carmine. The blossoms four to six layers deep are arranged in large flowered clusters all over the plant. A tremendous grower, with its thick vigorous canes, it is without doubt one of the most valuable single climbing roses in existence				
		.75	2.00	3.75

Climbing American Beauty —Color rosy crimson, almost identical with its parent, bush American Beauty, and with the same exquisite fragrance, a quality rarely found in climbing roses. Strong habit of growth. Thrive and bloom in almost any situation where a climbing or pillar Rose is desired. Flowers 3—4 inches in diameter, finely formed on long stems. Produced in great profusion. Splendid for cutting. Cane grows 10—15 feet in length. These new canes are the blooming wood for next season. Long stems, suitable for cutting and dozens of Roses can be cut from a single plant without being missed				
		.90	2.50	4.50

Mrs. Robert E. Perry —(Cl. Kaiserin Auguste Victoria)—This is one of the most beautiful white Roses grown. Its extra large, exquisitely formed flowers are borne singly on strong upright stems, making it very popular as a cut flower.....				
		1.00	2.50	4.50

Crimson Rambler —The famous crimson-clustered climber, so extremely effective when grown on porches, pillars and trellis.				
--	--	--	--	--

ALL PRICES ARE POSTPAID—DELIVERED FREE

	Delivered Prepaid Prices	each	3	6
Combined with the waxy, pale green, red-veined foliage, the crimson mass of bloom makes an irresistible effect.....		.75	2.00	3.75
Dr: W. Van Fleet —The flesh-pink climbing Rose. No other climbing Rose has ever created such favorable comment. Flowers are perfect in every way, form, color, delicate fragrance and long, strong stems. Cut a bouquet of this variety just before the flowers open, and you will find difficulty in procuring any other rose to compare with them in sheer loveliness. When established canes are 10—15 feet long producing masses of Roses. The splendid beautiful shiny bronze-green foliage, and perfect hardiness, added to the exquisite blooms, make this the choicest Rose in this class. Open flowers are 4 inches and over in diameter with high-built center and beautifully cupped petals. Flowers full and double, delicately perfumed; buds pointed. Flower stems 12—18 inches long. Fine for cutting....	1.00	2.50	4.50	
Gardenia —(Hardy Marechel Niel)—Deep rich golden yellow flowers. Blooms profusely and is as hardy as an oak. Flowers large and fine for cutting.....		.75	2.00	3.75
Hiawatha —Large cluster of single intense deep crimson flowers. This Rose holds its intense bright color for a long time and is very spectacular when in full bloom.....		.75	2.00	3.75
Marechel Niel —(See Gardenia)—				
Silver Moon —The grandest white climbing Rose. Flowers are very large semi-double, a most vigorous grower with large, dark green, shiny foliage. Quite different from all other climbing Roses. Extremely hardy	1.00	2.50	4.50	
Thousand Beauties —(Tausendschon)—Produces thousands of bright blossoms, borne in clusters and quite double. Colors of every imaginable shade, from white to deep pink. Has few thorns and handsome foliage. On account of its almost thornless canes this beautiful Rose is especially desired for arbor, arches, etc.75	2.00	3.75
Dorothy Perkins —Grows 10—15 feet in a season. Flowers are perfectly double, with petals crinkled, and color is a clear shell-pink; borne in immense clusters that cover the bush for several weeks in the spring.....		.65	1.75	3.25
Red Dorothy Perkins —(Excelsa)—The color is an intense, clear carmine-lake, a rich contrast to Pink Dorothy Perkins. Flowers are large and double, produce thirty to forty on a stem and almost every eye on a shoot produces a cluster of bright blossoms		.65	1.75	3.25
White Dorothy Perkins —A pure white sort of the well known Dorothy Perkins, of same habit of growing and freedom of flowering. A splendid companion for the pink variety, as it flowers at the same time.....		.65	1.75	3.25

HARDY ORNAMENTAL AND FLOWERING SHRUBS

No yard or grounds are complete without beautiful flowering shrubbery. Indispensable to the real beauty of your home. All buildings should be "tied-down" to their locations with border plantings.

ALTHÉA OR ROSE OF SHARON—(*Hibiscus syriacus*)—A familiar shrub, valuable because of its late flowering, hardy and of easy cultivation.

	Delivered Prepaid Prices	size	each	3	6
Crimson Everblooming —(Anthony Waterer)					
Grows 2 ft. high, handsome foliage and					
beautiful bright crimson flowers through-					
out the summer. One of the best red dwarf					
everblooming border spiraeas.....	8—10 ins.	.20	.50	.90	
	10—15 ins.	.35	1.00	1.75	
	12—18 ins.	.65	1.75	3.00	
Frobella —Dwarf and similar to Anthony					
Waterer being a trifle taller with broader					
leaves, bright crimson bloomer during July					
and August. A variety which is multiplying					
itself into favor each season, a good strong					
grower and extremely hardy.....	10—15 ins.	.20	.50	.90	
	12—18 ins.	.35	1.00	1.75	
	18—24 ins.	.65	1.75	3.00	
Bridal Wreath —(Van Houttei's Spiraea) —					
Among the very finest of flowering shrubs					
and the most charming and popular Spi-					
raea. It has pure white flowers an inch in					
diameter, in cluster or panicles. The pro-					
fusion of bloom weighs the slender branches					
down and covers the bush with a canopy of					
white. The plant is remarkably vigorous					
and hardy. Excellent as a single plant or					
for grouping and foundation planting.					
	Small 1 yr. 12—15 ins.	.15	.40	.75	
	Strong 1 yr. 12—18 ins.	.20	.50	.90	
	2 yr. 2—3 ft.	.35	1.00	1.75	
	Large 3 yr. clumps 3—4 ft.	.65	1.75	3.00	
Note —No finer stock in Spiraeas can be					
procured than what we offer.					
Double Bridal Wreath —(Prunifolia) — As					
the leaves are opening, small, snowwhite					
double flowers wrap themselves along the					
branches in lavish display of bloom. Grows					
5 to 6 ft. high.....	1 yr. 18—24 ins.	.20	.50	.90	
	2 yr. 2—3 ft.	.35	1.00	1.75	
	Large 3 yr. clumps	.65	1.75	3.00	
White Japanese —(Celosa Alba) — Similar to					
A. Waterer, blooms all summer.....					
	1 yr. 10—15 ins.	.20	.50	.90	
Pink Japanese —(Celosa Rubra) — Same as					
above except flowers are rose.....					
	1 yr. 10—15 ins.	.20	.50	.90	
Red Japanese —(Walluffi) — A vigorous					
shrub with much prettier red flowers than					
the Pink Japanese. Very desirable, too little					
known.....	1 yr. 10—15 ins.	.20	.50	.90	
Van Houtii's Spiraea —(See Bridal Wreath).

vigorous growing, bearing abundance of					
fragrant white flowers in flat cluster in					
June.....	1 yr. 18—24 ins.	.25	.65	1.25	
Golden Spiraea —(Gold Leaf Nine Bark) —					
One of the best of our yellow shrubs. Holds					
its color all summer.....	1 yr. 18—24 ins.	.25	.65	1.25	
Dwarf Spiraea —(Dwarf Nine Bark) —					
Dwarf showy white flowers, the smallest of					
the early blooming variety.....	12—18 ins.	.25	.65	1.25	
STYRAX JAPONICA —(Japanese Snow-					
bell) — A shrub with dull green rough foli-					
age and spreading branches, white bell-					
shaped flowers, pendulous, hanging along the					
branches.....	12—18 ins.	.20	.50	.90	

TAMARIX—(Tamarisk)—Very hardy shrub of strong growth, light green feathery foliage, flowers delicate and fringing, grows anywhere. **Africana** makes a beautiful semi-evergreen hedge or yard fence. **Africana**—Strong, slender, upright growth, with panicles of feathery soft pink flowers in April and May. This variety is one of the best of Tamarix. **Chinensis**—Delicate pink or white flowers in slender-panicked racemes. An exceedingly pretty sort. **Hispida**—Blooms when few other shrubs are in flower, and its feathery delicate, soft pink sprays of blossoms are exceedingly attractive.

	Delivered Prepaid Prices	size	each	3	6

WEIGELAS—(Diervilla)—A June bloomer, Exceedingly attractive delicate flowers. Does well in any situation, blooms lavishly and grows vigorously. Ultimate height 3—5 feet. **Rosea**—Showy rose colored flowers, spreading branches, dark green leaves. The best bloomer of all. **Eva Rathke**—(Red Weigela)—Free bloomer, brilliant crimson colored flowers. Ultimate height 4—5 feet. **Variegata**—Silvery varigated leaves and pink flowers. A good sort. **Floribunda**—(Crimson Weigela)—An abundance of fragrant crimson flowers, strong grower.

	Delivered Prepaid Prices	size	each	3	6
On All Weigelas		10—15 ins.	.35	1.00	1.75
		18—24 ins.	.65	1.75	3.00

WITCH HAZEL—(Hamamelis Virginica)—grows 10 feet tall with fine yellow orange and purple leaves in fall, that drop before bright yellow flowers appear.....12—18 ins. .35 1.00 1.75

ORNAMENTAL REEDS AND GRASSES

Much used for planting as single specimens on the lawn, in groups and beds. Nothing gives a finer effect than strong clumps of these grasses well placed. **Eulalia**—(Gracillima univittata)—Graceful, narrow foliage, bright green with a silver mid-rib. **Eulalia Japonica**—A very ornamental, strong-growing variety with light green leaves. **Japan Rush**—(Eulalia Japonica Variegata)—A very ornamental variety. Leaves beautifully striped white and green. **Zebra Grass**—(Eulalia Zebrina)—Very long blades, with yellow bands across the leaves. Forms an effective adornment to the lawn. **Varigated Ribbon Grass**—A well known sort growing 12—15 inches high, more dwarf than the Eulalias. **Hardy Pampas or Plume Grass**—There is nothing finer in hardy grasses than this. Grows 10—12 feet high, frequently throwing up 40 to 50 flower spikes. **Delivered Prepaid Prices On All Grasses**. Each 20c; Small Clumps 65c; Large Clumps \$1.25.

Giant Reed—(Indian Cane-Arundo Donax)—This is the Bamboo looking grass to use for massive planting. It will grow 15 feet high and oven in one season. Long flower spikes in early summer. Sometimes called Bamboo grass. (Root divisions). Each 65c; Small Clumps \$1.25; Large Clumps \$2.50; **Delivered Prepaid**.

HARDY ORNAMENTAL HEDGING AND YARD FENCING

Ornamental and flowering shrubs have completely supplanted the iron and picket fence. Why not? As they give a more neighborly and harmonious effect.

PRIVET—(Ligustrum)—A rapid grower in most situations, does well in partial shade. Excellent for hedges, or for association with other shrubs. It is almost an evergreen and grows freely in all soils. Compact and regular

ALL PRICES ARE POSTPAID — DELIVERED FREE

in its form and bears shearing, to any extent. White fragrant flowers in sprays. Followed by berries of different colors.

AMOOR RIVER PRIVET—(*Amurensis*)—The Chinese variety, hardier than others. Dark green leaves, which persist almost through the winter. Evergreen in the South, bears erect panicles of handsome white flowers in June, followed by blackberries.

Delivered Prepaid Prices	size	10	50	100
	1 yr. 12—15 ins.	1.25	5.00	9.00
	Large bushy 2 yr. 18—24 ins.	2.00	8.00	15.00

CHINESE PRIVET—(*Ibota*)—A notable species both in growth and foliage. It is very vigorous, has distinct, deep green leaves and numerous racemes of pure white fragrant flowers. Excellent for hedging purposes and forms a beautiful specimen plant. One of the best Privets.

	1 yr. 12—18 ins.	1.25	5.00	9.00
	Bushy 2 yr. 18—24 ins.	2.25	9.00	17.00

CALIFORNIA PRIVET—(*Ovalifolium*)—A species of unusual beauty that has become the most popular of all hedge plants, also desirable for groups and specimens. Its shining leaves give it value for porch and terrace decoration. A favorite with everyone and one of the best sorts.

STANDARD GARDEN VEGETABLE PLANTS

Strong Sash Grown, vegetable plants are a specialty with Weaver Gardens. All grown from the very best strains of seed. No better varieties are produced. All plants have been transplanted once, or more times and have strong fibrous roots in abundance and are not the cheap spindly plants like you can buy from so many sources at much less prices.

ALL PRICES ARE POSTPAID—DELIVERED FREE

CABBAGE PLANTS—All cabbage plants are well hardened, and will stand as much frost as any so-called Frost proof plants, and are superior in every way, better leaf, better stems, better roots and more vigorous, and most important of all, free from plant lice (Aphis) and disease. Varieties as follows—Early Jersey Wakefield, Copenhagen Market, Large Wakefield or Charleston, Sure head, All season. Dwarf Flat Dutch.

TOMATO PLANTS—The king of all garden vegetables. Every garden should have early as well as a main crop of Tomatoes. Most of our early sorts will be plants that will reach you in bud and bloom, and the late sorts will be stocky with large mass of fibrous roots. We grow tomato plants for a large number of very critical gardeners. Most of them being twice transplanted.

EARLY VARIETIES—Chalks Early Jewell—One of the best early bright scarlet tomatoes for home or market. Bonny Best—Very early, large and smooth scarlet red. Heavy cropper. John Bear... Extra early scarlet fruited, hardy and productive. Burbank—Very early, bright crimson color, unusually heavy and continuous bearer throughout the season. Selected Red Head—One of the best early tomatoes. Smooth, deep red color, hardy, heavy yelder, very prolific. Spark Earliana—Extremely early of good size and very popular with most growers everywhere. An excellent early tomato for home use.

Delivered Prepaid Prices 12 100 1000

On Early Tomatoes20 1.00 8.50

MAIN CROP VARIETIES—Greater Baltimore—Firm and meaty, bright red, free from ridges, cracks and blight. Excellent for table and canning. Early Acme—One of the best second early purplish pink sorts, delicious flavored, firm solid flesh, round, smooth and productive. Dwarf Champion—The best tree tomato, popular because of its stiff, vigorous upright growth, purplish-pink fruit. Matchless—A well named large red tomato. One of the best sorts for general planting. Color is a rich cardinal red, fruit smooth, solid and coreless. Tree Tomato—(See Dwarf Champion)—Pondorosa—No tomato surpasses the Pondorosa in size and delicious meaty flavor. The largest and heaviest tomato grown. Considered by thousands the best table variety in existence for slicing. New Stone—The standard main crop for the garden, market or canning. Fruit is of good size, bright red in color. Perfectly smooth and of best table qualities. The old stand by and a favorite with everyone.

Delivered Prepaid Prices 12 100 1000

On Main Crop Sorts20 1.00 8.50

YELLOW VARIETIES—Golden Queen—Fruits are large and smooth, bright yellow color and of superior flavor. Golden Ponderosa—Equals Ponderosa in size, producing golden yellow tomatoes in great profusion. Yellow Pear—The old favorite both for preserves and "Tomato Figs." Excellent mild flavor. Yellow Plum—Fruits plum shaped of clear yellow. Fine flavored, esteemed for preserves.

Spearmint Large Leaved Variety of Garden Mint15	.75	1.25
Lettuce—Best curled-leaved, garden varieties. (100—\$1.50)20	
Mangel Beets—For winter chicken feed. (100—\$1.50)25	
Sunberry—Burbank's Purple or Orange.....	.05	.25	.45

Hardy Winter Bunching Onion Plants—(White Welsh)—The hardiest of all green bunching table onions. Does not produce bulbs or tops sets but multiplies itself rapidly by sub-division. Plant a few in the garden and always have a few green onions. 12—25c; 50—75c; 100—\$1.25; 1000—\$10.00; Postpaid. (For seed see White Welsh Page 42.)

Garlic Bulbs—(Imp. Italian)—The best known sort. Lb. 25c; Postpaid.

Note:—To dealers or large growers. We can usually supply you in wholesale quantities during July, August, September, f. o. b. Wichita, at 10—12c per pound.

HORE RADISH SETS—A well known perfectly hardy garden plant. **Maliner Kren**—The large white horse-radish from Bohemia introduced by the U. S. Dept. of Agri. Flesh is pure white. Large rank grower, fine grained and flavor. 3—10c; 12—30c; 100—\$1.50; 1000—\$10.00; Prepaid.

ONION SETS—White, Red or Yellow bottom, lb. 35c; Postpaid.

HARDY WINTER ONION SETS—Sets of these onions can be planted any month in the year, ground can be worked. We are extensive growers and can supply large quantities at certain season of the year. Prices being cheapest at the time of harvest as no storage or shrinkage cost is considered at that time. Market gardeners and others that require large quantities should make it a point to correspond with us.

Egyptian or Perennial Tree—This variety never forms large bulbs, its value lies wholly in its ability to produce green onions for spring or fall use. Perfectly hardy. Once planted, will come year after year and multiply. Produces sets on top of stalks. This is the sort generally grown for green bunching onions by most gardeners. (28 lbs. to bu.—(Our price from Oct. 1st to July 1st, (Shipped charges collect lb. 15c) lb. 25c; 10 lbs. \$2.00; Postpaid.

Our usual quantity price is sack lots or more, f. o. b. Wichita during July, August and September, per lb. 8—9c. (Note:—The demand at this time is very heavy as Aug. and Sept, are best months to plant and we advise you to let us book your order as early as possible for shipment at that time).

Yellow Multiplier or Potato Onion Sets—This excellent sort multiplies by the parent bulb. It is a yellow skinned onion, very mild in flavor. (Shipped charges Collect lb. 15c). Lb. 25c; 10 lbs. \$2.00; Postpaid. (Note:—The same low price applies during harvest time, July, August and September as on the Egyptian Sets.

Hardy Shallots—The hardest onion in cultivation except White Welsh. We have the true stock that multiplies

by divisions of the parent bulb that is extremely early and very productive. Never produces seed. This onion is grown almost exclusively for the New York market and sells higher than other sorts. (Shipped charges Collect, lb. 35c). Lb. 45c; 10 lbs. \$4.00; Postpaid. (Note:—At harvest time during July, August and September. Can quote low prices on Shallots sets to quantity buyers).

White Welsh Onion—Green growing plants—See Page 41.
White Welsh Onion Seed—Pearly white in appearance and mild flavor. Does not form a bulb but produces extremely early spring onions, require no winter mulching. Sow seed in early spring the same as other onions. Specially grown new crop seed. lb. \$4.00 Postpaid. (P. S. Complete treatise on growing with every order for seed).

ASPARAGUS ROOTS

One of the earliest and most delicious spring vegetables, easily grown and should be in every garden. For hand cultivation plant roots 1 ft. apart in rows 2 ft. apart, throw out dirt spade deep, planting crown in furrow, covering 2—3 inches deep until growth starts. When ground can be worked level by cultivation. Apply stable manure on surface and keep well worked into the soil. Asparagus growing for market has been a specialty with the Weaver Gardens for 18 years. Our oldest planting of 2½ acres is now 18 years old. No finer "Grass" is produced than this bed of Weavers Giant Palmetto which sort we have continuously improved by seed selection. **Weavers Giant Palmetto**—Grown from our own specially selected seed. No better roots are produced and no better variety is grown. Extra Large 1 yr. heavy selected crowns. 25—50c; 100—\$1.75; 1000—\$15.00; (Shipped charges Collect 1000—\$8.00; 10,000—\$65.00). **Washington**—A new sort bred by the U. S. Dept. of Agri. Grown from pedigreed seed. 25—75c; 100—\$2.75; Postpaid. **Mary Washington**—A later introduction—Grown from pedigreed seed, costing \$20.00 per pound. 25—90c; 100—\$3.50; Postpaid.

ASPARAGUS SEED—New 1923 crop. **Weavers Giant Palmetto**—Special selected, per lb. \$2.50; Postpaid.

RHUBARB—PIE PLANT ROOTS

A necessity in every garden, Hardy everywhere, except extreme South. Grows from thick fleshy roots or crowns. Should be planted with crowns just below surface. Rhubarb does not come true from seed. Seedling Rhubarb plants includes everything, all kinds and sorts, some utterly worthless. The best Rhubarb or Hybrid sorts are propagated by root divisions. A great many seedsmen and dealers quote one and two year old roots. This should be warning to you that they are seedling roots. **Weavers Giant Crimson**—(seedless)—The best deep red Rhubarb in cultivation. Propagated from divisions for 18 years until it practically never throws seed stalks. This is the same sort that we grow for the Wichita market and have sold for years throughout our home territory. We guarantee it to give you entire satisfaction. **Standard Root Divisions. Delivered Prepaid each 15c; 6—50c; 12—90c; 100—\$8.00; (For commercial or large growers)—Small Planting Root Divisions—100—\$4.00; 1000—\$35.00; Delivered Prepaid.**

STRAWBERRY PLANTS

Everyone likes strawberries and every family having a garden should have enough plants to furnish them with

ALL PRICES ARE PREPAID—DELIVERED FREE

Strawberries throughout the spring and fall. The new Everbearing kinds are proving very successful and it is now possible to have a full crop of berries the same year you plant them. Strawberry plants is one of our specialties. Our plants have strong fibrous roots and will grow for you. We do not grow a large list of varieties, but what we do grow is adapted for our trade territory.

Early Excelsior—This is the very earliest, berry grown. A fine flavored berry and good for the home garden. Very dark red. **Imp, Lady Thompson**—A new berry coming in favor. Ripening medium early. It cannot be equaled for growth in ordinary soil. Stands adverse weather conditions admirably. **Champion K**—improved Klondyke. Makes large crops of fine colored and shaped berries. A good sure crop variety. **Senator Dunlap**—The old reliable Strawberry for all soils and situation. It does well everywhere and produces enormous crops of fine fruit regularly. We guarantee Senator Dunlap to please everyone. **Aroma**—The fancy late strawberry. This is the largest profitable late crop berry grown. Aroma is very large roundish to conical shape, glossy red, of excellent quality and produced in abundance. **Gibson**—Medium late, wonderful new strawberry. A favorite market or canning sort in the North and Central States. Large, dark, red, nearly round.

EVERBEARING VARIETIES—**Progressive Everbearing**—The best known Everbearing Strawberry, grown in great quantities in every state in the Union. Producing large berries during September, October and November according to locality. You can gather a crop of fruit the first year of planting from this variety. **Champion Everbearing**—The new heavy yielding everbearing strawberry. This berry is fast gaining in favor. It was only recently that plants could not be purchased for less than \$12.00 per hundred. It produces a wonderful crop of fine berries and is an Everbearing sort of merit.
